**A single photograph by Alfred Hablützel of black-and-white striped silk fabric proved to be an almost inexhaustible source of inspiration for Trix (b. 1933) and Robert (b. 1931) Haussmann's illusionistic designs. These include the Wogg 12 Sideboard from 1986 and the buffet plate launched by the Circle of Friends in 2017. Now other works are being added to the family. The Circle of Friends is proud to present an entire tasteful breakfast set with an espresso cup and saucer, a small plate, and a new edition of the legendary mug.**
